# SHARED MOTOR BAY

---

All equipment is fully serviced, tested and ready to go!

## Small Bays (4.7m- 3.2m)

- Compressed air and power boxes high level
- Exhaust extracts
- Work benches
- Waste disposal area – liquid waste/metal waste
- Lockers
- Wheel balancing machines
- Tyre changing machines
- Emissions testing machine
- Shared wash up area – 2x sink
- Pallet truck
- 2 tonne jacks
- One tonne manual stacker

## Large Bay (6.9m- 3.2m)

- Includes all of the above plus:
- Vehicle lift SWL 3000KG

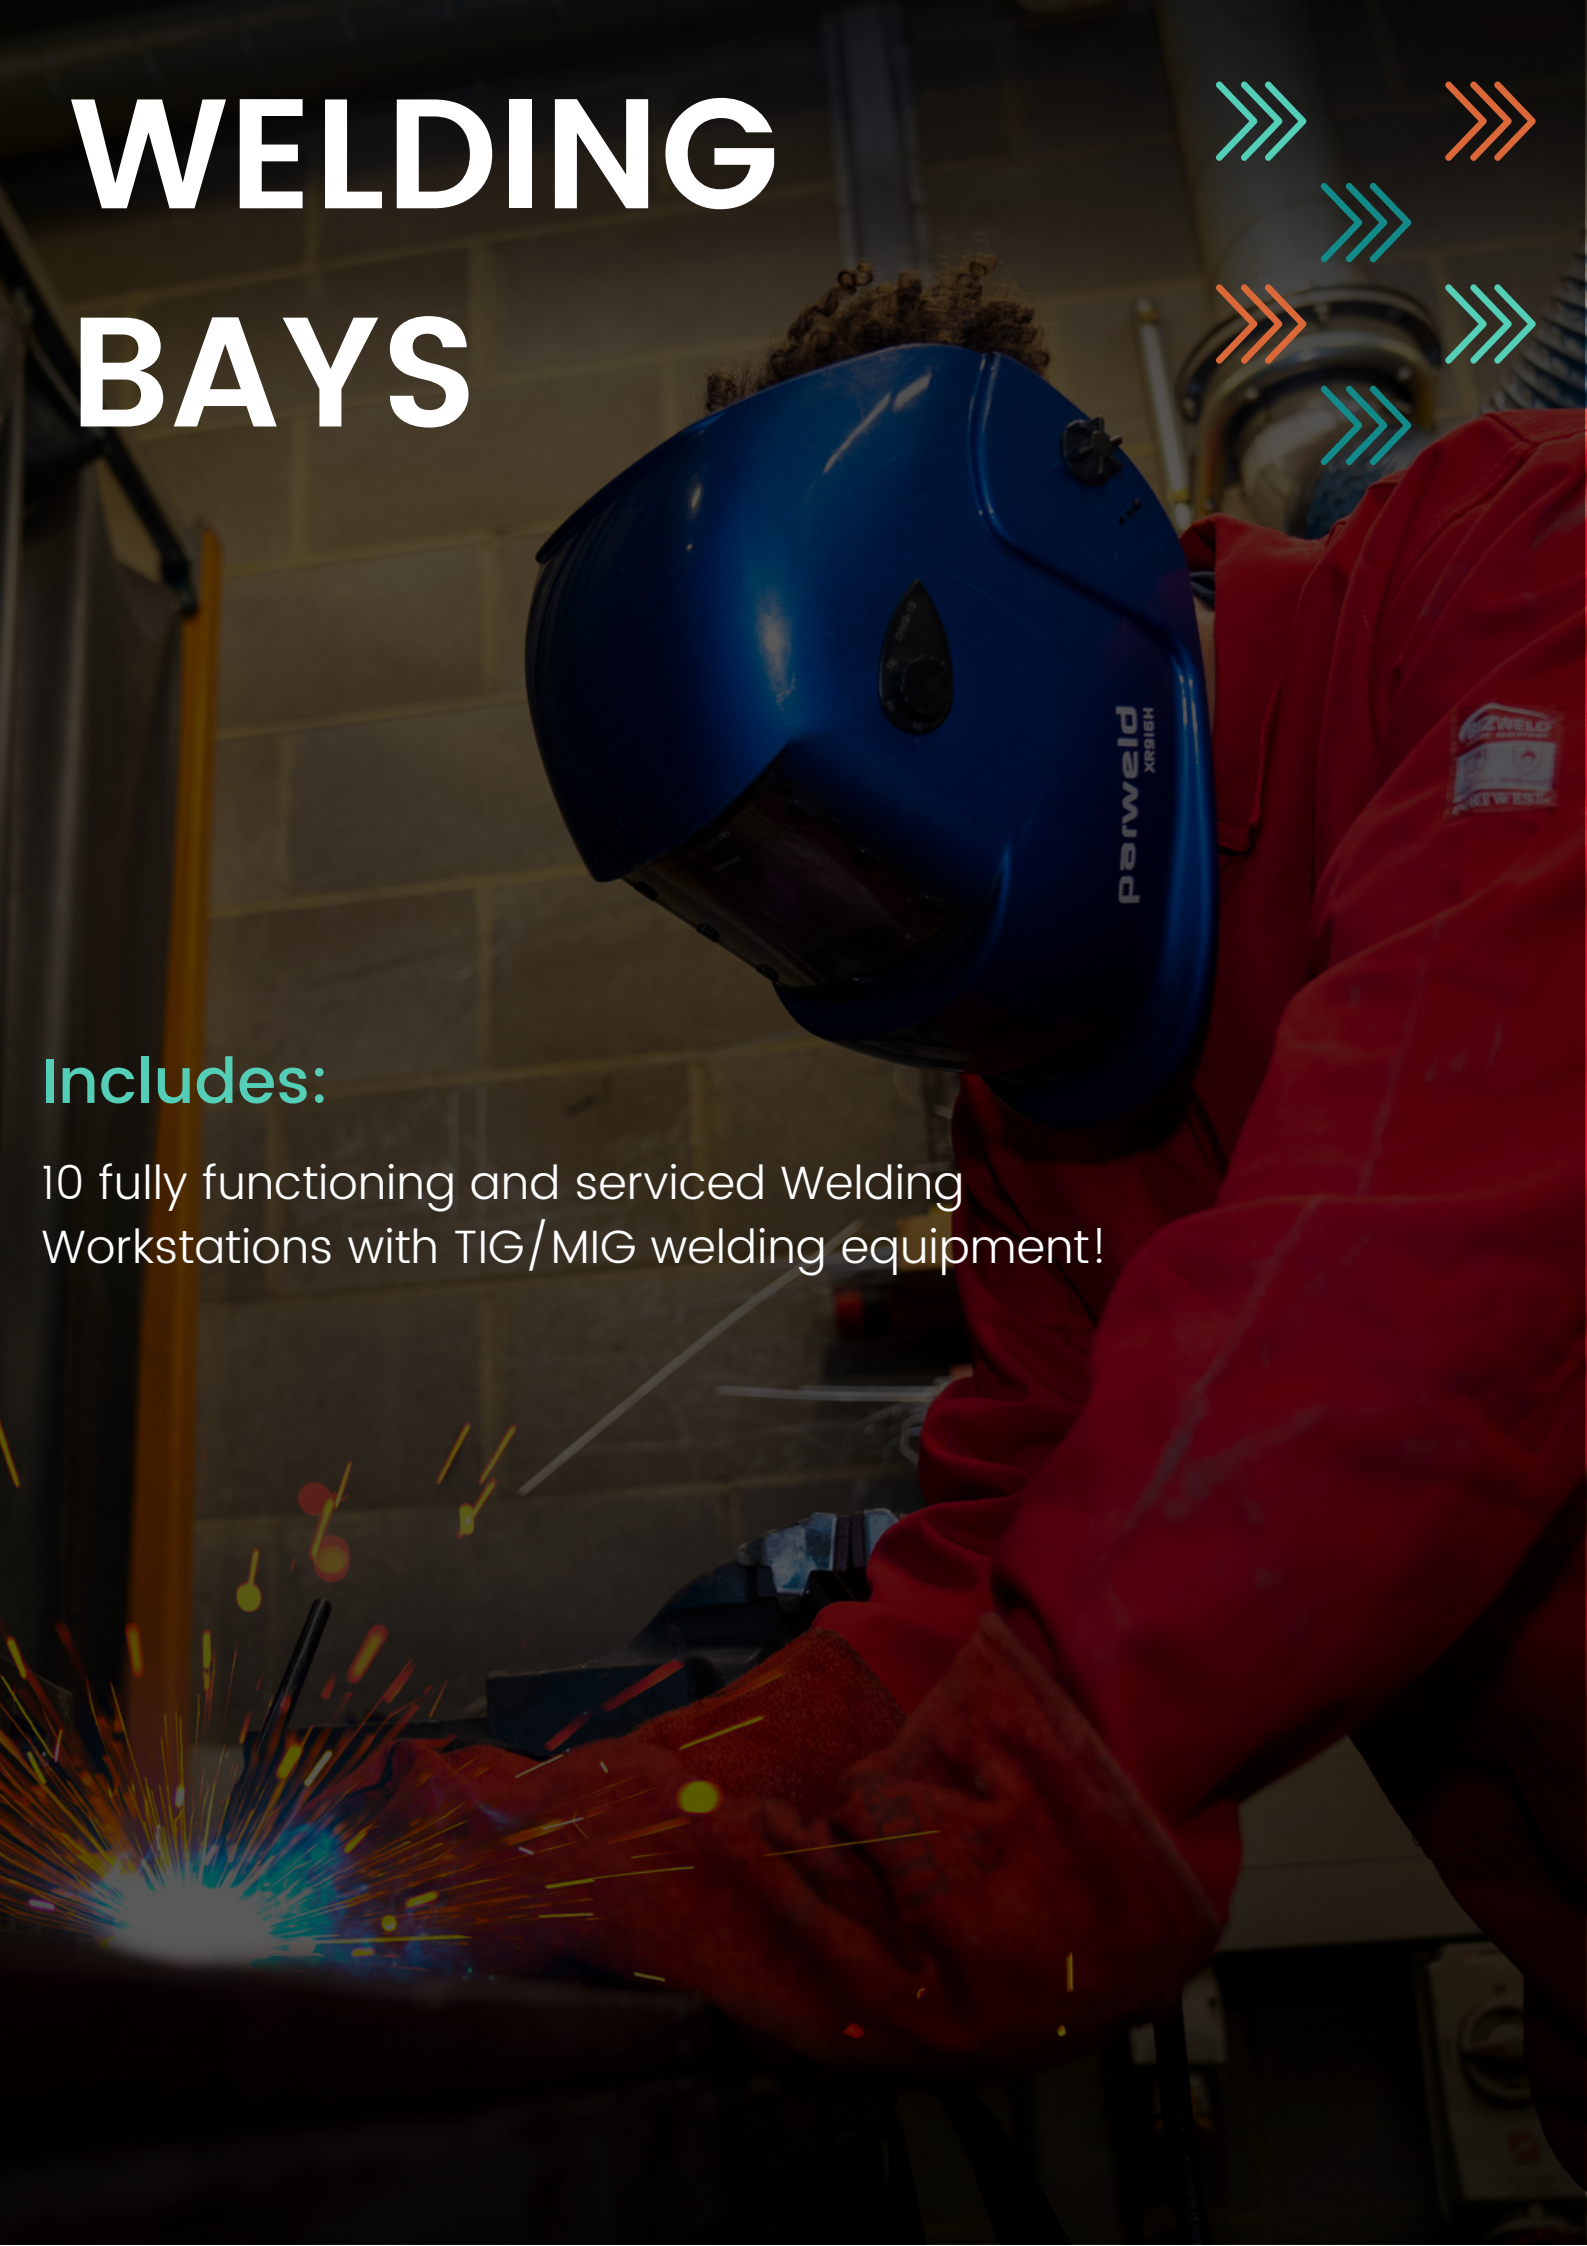

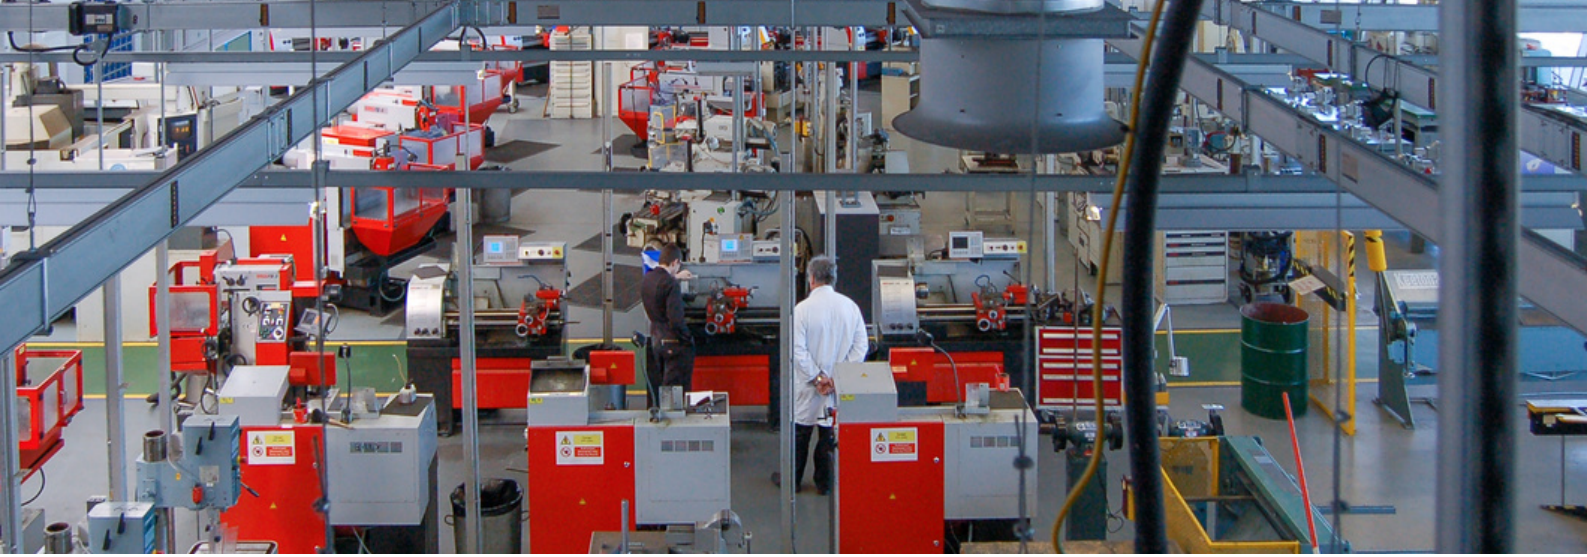

# WELDING BAYS

## Includes:

10 fully functioning and serviced Welding Workstations with TIG/MIG welding equipment!

# SHARED ENGINEERING WORKSHOPS

CEME has a shared engineering workshop on site which is separated into three sections. The equipment included in these spaces can found below.

## Sheet Metal Workshop

- Engraver – Pantograph
- Fly Press x3
- Folder – Manual x2
- Guillotine – Power
- Press – Hydraulic
- Press – Hand
- Roller – Hand
- Band Saw – Horizontal

## Bench Workshop

- Drill – Pillar x5
- Drill – Bench x2
- Furnace – Electric
- Linisher/Sander & Extractor
- Linisher/Sander (In stores)
- Shear – Hand Bench
- Swage – Hand Bench
- Shot Blast & Extractor

## Milling/Turning Workshop

- Buffer
- Grinder – Surface & Extractor x3
- Grinder – Surface Ring
- Grinder – Cylindrical
- Lathe x11
- Milling Machine x8
- Nibbler Floor Standing
- Band Saw – Vertical x2

## Engineering Space (Shared items)

- Grinder – Pedestal x4
